

## **SODIUM THIOGLYCOLLATE**

**Sodium Thioglycollate, bacteriological grade**

### **DESCRIPTION**

Sodium Thioglycollate, bacteriological grade, is used in Thioglycollate Media and in certain other media as a reducing agent and to inactivate the anti-microbial compounds present in the samples.

### **TYPICAL ANALYSIS**

Appearance.....white powder  
Assay..... $\geq 95\%$   
Fe..... $\leq 10$  ppm  
Solubility in water..... complete  
Performances in Thioglycollate Broth.....passes test

### **PACKAGING**

**4123702**                      **Sodium Thioglycollate**                      **500 g**
